

Connecting diagram 0302-0-1005

NOTE:
Please read additional instructions about HIDRIA EC MOD-BUS Parameters and about control options.

WARNING:

- Before opening connection box switch off electric power!
- Dangerous voltages, capacitor discharge time 5min!

NOTE:
Please read user's guide for more instructions about control options and before putting the fan into operation.

SELV MOD-BUS CONTROL OUT/IN

Customer's circuit :
CONTROL OPTIONS :

Max. speed analog input 0-10V sensor (Variable resistance) potentiometer PWM frequency input 1-10kHz analog input 0-20mA
